POINTERS FOR SHOW - BAKING and COOKING

Scones Light and fine texture. Size should be about 5cm. For Show work, scones should never touch while cooking. Before bringing scones to a Show, rub any visible flour off with a soft cloth.

Biscuits Flavour plays a big part in judging. The flavour should denote what type of biscuit it is. Keep shape in size uniformity.

Fruit Cakes Flavour should be very pleasing, with fruit distributed evenly. When cut, fruit should have a glossy look. If overcooked, fruit will start to burst. The top should be nice and smooth. This can be achieved by wetting your hand and patting the top of the cake before cooking.

Boiled Fruit Cake As this is called a 'poor man's fruit cake', it should have only 375g packet of mixed fruit and a nice glossy top. A lot of competitors lose points by cleaning out the bowl too much. This part of the mixture has less fruit and this will show, spoiling the appearance of the cake.

Freezing Points For Show work - never freeze sponge cakes, fruit cakes or shortbread. For others, make sure the cake has cooled thoroughly before freezing. Wrap tightly with cling wrap so there is no air between the cake and the wrapping. You can then either put the cake in a dish or just wrap in paper to freeze. For Show work, ice after thawing. Thaw the day before the Show wrapped in a towel to absorb any moisture. Biscuits freeze well. Wrap Show biscuits in cello-paper. Put each pack into a plastic dish and freeze. To thaw, take dish out of freezer but leave in airtight container until ready to use. Fruit cakes and shortbread improve in flavour by keeping them out of the freezer. Scones can be frozen, but must be taken out the morning of the Show and wrapped in a tea towel.

Fudge Do not overbeat as it grains too much and loses its bright colour.

Coconut Ice Do not overcook as it becomes hard to cut. Must be boiled, not made on cophia. Don't colour pink too brightly

Relish	Cooked for less time than chutney and mostly contains fruit.
Chutney	Cooked longer than relish.
Pickles	When asked for sweet mustard pickles, sugar is used. For pickled onions, use a good white vinegar and make them close to the Show date so they don't lose any of their nice white colour.
Jams	Should be of good colour and flavour, thick enough so that when dropped from spoon, it will stay "dropped". Should have a nice pearly shine. Cook jam slowly before adding sugar and boil briskly after sugar has been added. Add lemon juice at start of cooking jam as it brings out the pectin in the fruit. Jams lose colour with age. Make sure bottle is full enough so that when lid is placed on bottle there is no gap between jelly and lid.
Marmalades	Always cut skins finely. Don't put them through a blender. Some recipes give this method, but it is not acceptable for Show work as it gives the marmalade a cloudy look. If marmalade is too hot when bottled, fruit will rise from bottom losing points.
